Text for group one and two

1. First, separate your clothing. Means, you have to separate your clothing into three categories. White, dark, and bright colours.
2. Second, read the labels to make sure nothing is dry-clean only or hand wash only. If you find it, just separate these items into another new pile.
3. Third, read the label on the detergent to put the correct measure into the machine.
4. Next, add the water and wait until the tub is full enough.
5. After that, close the lid and set the speed of your machine or you can choose regular speed for most clothing. To get the best result, use hot water for white clothing, cold for dark clothes, and warm for bright colours.
6. Turn on the washing machine and allow it to run until finished.
7. After the process of washing is finished, let the clothes drain through the drain hose.
8. After that, see the knob of the wash timer again, set up for three minutes more.
9. Do this twice for a good rinsing.
10. Finally, put the wet clothes into the spin compartment, set the knob and wait until the spin processing shuts off.
11. Well-done! Your clothes are clean and ready to dry for a few minutes.
