The Importance of Learning English

In this modern era, there are a lot of people who still can't speak English. Actually, there are many benefits of learning English. Here are two reasons why it's important.

First, English opens new career opportunities. These days, many companies need employees who can communicate with clients from around the world. Usually, it means someone who can speak English because English is an international language. Being a bilingual person, you can get the opportunity to work in a global company.

Second, English tests can get you into schools. You probably already know English tests such as TOEFL and IELTS. If you learn English well enough to pass English tests like TOEFL, you can study in English-language universities across the globe. Although you aren't going to study abroad, learning English can help you in making the thesis because there are a lot of sources use English languages.

There are indeed many other benefits of learning the English language. But, the two reasons above help us to believe that English is important for our life and by learning English languages we can communicate with many people from other countries.

The Importance of Library

I personally believe that libraries are among humanity's most important institutions for several reasons. Firstly, most of humanity's collective knowledge is stored in libraries. Secondly, libraries protect and preserve this knowledge. They also classify or group the materials into logical and easily available divisions. Furthermore, libraries make the materials available to everyone and even provide librarians to help us find what we need. Finally, libraries are our

link to the past and our gift to the future. From the facts above, I conclude that libraries are important institutions for humanity.

- What do you know about the pictures?
- Have you ever gone there?
- Do you often read some books over there?
- What do we need to the library?

The Importance of Drinking Water

Thesis

How much do you drink water today? Water is often considered insignificant but behind it all, it turns out that water has important functions for our body. There are several reasons why you should drink enough water.

1st Argument

Firstly, interstitial fluid is obtained by drinking lots of water. Water is used by the body to digest food and help transport nutrients throughout the body. In addition, interstitial fluid is also useful for producing saliva and regulating body temperature.

2nd Argument

The second reason is that it helps kidney work. Our kidney processes 200 liters of blood in our body every day. It also filters out waste and delivers urine to the bladder. To do all the tasks, our kidney needs enough water because water is used to clean anything that is unnecessary for our body. Furthermore, drinking water can moisturize our skin. It makes our skin feel fresh, soft, bright and smooth.

Reiteration

Additionally, drinking enough water every day can also improve the function of our brain. It can help us to concentrate more and unlease the nervous system in the brain. In conclusion, drinking water is important because it is needed for our interstitial fluid, helps kidney work, is good for healty skin, and improves the function of our brain.

The Importance of Internet for Education

The impact of internet in education has been far reaching and still developing. It has created instant access to a wide variety of research information to help students learn.

Nowadays, internet access has created the potential for students to learn new material easily. The time students have at class is limited, so the teacher sometimes cannot give all the explanation needed. In this case, internet can help students to get more explanation.

Internet has become now way of life. In the future, on students' working life, they will have to use internet. So it is wise for the teacher to give assignment which related to it. For example, teacher can ask students to give the assignment via e-mail.

Internet has big impact on education. There are many positive things students and teacher can get from it.
