Example of Analytical Exposition

Covid-19 Health Protocol Violators Should Be Sanctioned

Thesis

COVID-19 health **protocol** violators should be sanctioned. As we know, the number of people **infected** with the covid virus is still increasing in our country, but some people still ignore the health protocol by not wearing mask and keeping their distance.

Argument

Firstly, the violators will continue to **ignore** the health protocol suggested by the government if they aren't sanctioned. By being sanctioned, they will feel **deterred** and ashamed so that in the future they will obey the rules given.

Secondly, by sanctioning the violators, they will understand responsibility. Not only does it prevent us from being infected by the virus, but **adhering** to health protocols also keep others safe. We may not feel infected, but at least we prevent bad things by continuing to keep distance and wearing masks. That way, we will fulfill our responsibilities to ourselves and others.

Lastly, giving sanctions to the violators will make them more aware of the danger of COVID-19. It is said that WHO declared COVID-19 a **pandemic**, which means that this virus is very dangerous, so it is best to continue to maintain health and avoid COVID-19.

Reiteration

Therefore, the health protocol violators should be sanctioned because of the reasons given above.

Laptop as Students' Friend

Conventionally, students need book, pen, eraser, drawing book, ruler and such other stuff. Additionally, in this multimedia era, students need more to reach their progressive development. Students need mobile keyboards to record every presented subject easily. Of course it will need more cost but it will deserve for its function.

First, modern schools tend to apply fast transferring knowledge because the school needs to catch the target of curriculum. Every subject will tend to be given in demonstrative method. Consequently students need extra media cover the subject. Since there is a laptop on every student's desk, this method will help student to get better understanding.

Secondly, finding an appropriate laptop is not difficult as it was. Recently there is an online shop which provides comprehensive information. The best is that the shop has service of online shopping. The students just need to brows that online shop, decide which computer or laptop they need, and then complete the transaction. After that the laptop will be delivered to the students' houses. That is really easy and save time and money.

From all of that, having mobile computer is absolutely useful for students who want to catch the best result for their study.

Handphone is Important

Handphone is one of electronic technology in our life. Handphone have many functions and very important for our life. Almost all people in the world have handphone. And now, there is some reason why handphone is important.

First, handphone can be used for communication. All people in the world know that it is the basic function of handphone. With handphone, we can communicate with other people although the long distance separated us. With handphone, communication will be easy. We can talk with someone else around the world with handphone. If we don't want to talk with them, we can send them information through SMS or short message. SMS is the acronym of Short Message Service. In SMS, we can't talk-on, we only send messages.

Second, handphone comes in various facilities, such as camera, music player, video player, dictionary, calculator, games, etc. With camera, we can take a lot of pictures and videos. Those pictures and videos can memories us to the romantic, sadness, and also unforgettable moments. We also take a picture and video just for fun. With handphone, we also can listen to music and watch video. With handphone too, we can search the meaning of a word and also to calculate something. With handphone too, we can play games. It can help us when we feel bored. When we feel bored, we can play games so we can't be bored again.

The last but not least, handphone can be used for browsing internet. With handphone, we can search many information easily. And if we want to browsing internet, we don't need computer to open it. With handphone, we can open the internet and search many information that we need easily and fast.

Based on the above discussion, don't marvels if almost all people in the world have handphone, because handphone is an electronic technology that very much important to our lives.
