### **Borobudur Temple**

Borobudur is Hindu – Buddhist of temple. It was build in the nineth century under Sailendra dynasty of an ancient Mataram kingdom. Borobudur is located in Magelang, Central Java, Indonesia.

Borobudur is well-known all more over the world. It's construction is an influenced by the Gupta architecture of India. The temple is constructed on a hill for 46 m high and consist of eight step like stone terrace. The first five terrace are square and surrounded by the walls adorned with Budist sculpture in bas-relief.

The upper of three are circular. Each of them is with a circle of the bell shape-stupa. The entire adifice is crowned by a large stupa at the centre of the top circle. The way to the summit extends through some about 4.8 km of passage and starways. The design of borobudur which symbolizes the structure of universe an influences temples at Angkor, Cambodia
