

## RENCANA PELAKSANAAN PEMBELAJARAN (RPP)

Satuan Pendidikan : SMA Trensains Muhammadiyah Sragen  
Kelas/ Semester : XII/ Ganjil  
Tema : Topik 9 / News Item  
Sub Tema : National News  
Pembelajaran Ke : 1  
Alokasi Waktu : 4 x 45 menit

### A. TUJUAN PEMBELAJARAN

1. Menganalisis fungsi sosial, struktur dan unsur kebahasaan teks news item.
2. Mempresentasikan hasil diskusi kelompok terkait dengan fungsi sosial dan unsur kebahasaan teks news item.
3. Menangkap makna kontekstual terkait fungsi sosial, struktur dan ciri kebahasaan serta makna isi tersurat, tersirat dan rinci teks news item.
4. Menyusun teks news item dengan memperhatikan struktur, fungsi sosial dan ciri kebahasaan.

### B. KEGIATAN PEMBELAJARAN

1. Kegiatan Pendahuluan
  - a) Orientasi: Melakukan pembukaan dengan salam pembuka dan berdoa untuk memulai pembelajaran, memeriksa kehadiran, menyiapkan fisik dan psikis peserta didik dalam mengawali kegiatan pembelajaran.
  - b) Apersepsi: Mengaitkan materi pembelajaran yang akan dilakukan dengan pengalaman peserta didik dengan materi sebelumnya, mengajukan pertanyaan yang ada keterkaitannya dengan pelajaran yang akan dilakukan.
  - c) Motivasi: Memberikan gambaran tentang manfaat mempelajari materi teks news item dalam kehidupan sehari-hari, menyampaikan tujuan pembelajaran dan metode/model pembelajarannya.
2. Kegiatan Inti
  - a) Literasi: Ditayangkan video/membaca teks news item sehingga terjadi pendekatan saintifik (mengamati, menanya, mengumpulkan informasi/ eksperimen, mengasosiasikan mengolah informasi, mengomunikasikan)
  - b) Critical Thinking (berpikir kritis): Guru memberikan kesempatan pada peserta didik untuk mengidentifikasi, bertanya, memberikan pendapat, dan menyimpulkan tentang materi teks news item.
  - c) Collaboration (kerja sama): Peserta didik dibentuk dalam beberapa kelompok untuk mendiskusikan, mengumpulkan informasi, mempresentasikan, dan saling bertukar informasi tentang teks news item.
  - d) Communication (komunikasi): Peserta didik berdiskusi untuk menyimpulkan dan menyampaikan hasil diskusi atau mempresentasikan hasil diskusi kelompok.
  - e) Creativity (kreativitas): Peserta didik bertanya tentang hal yang belum dipahami atau guru menyampaikan beberapa pertanyaan kepada siswa berkaitan dengan teks news item.
3. Kegiatan Penutup
  - a) Peserta didik: Membuat ringkasan materi teks news item dengan bimbingan guru
  - b) Guru: memeriksa pekerjaan peserta didik yang sudah selesai/kelompok yang kinerjanya baik dan diberi paraf serta diberi apresiasi/nilai.

### C. PENILAIAN PEMBELAJARAN

1. Tes Tertulis: Menjawab pertanyaan tentang fungsi sosial, struktur dan ciri kebahasaan teks news item serta menjawab pertanyaan berkaitan dengan informasi tersurat, tersirat, rinci topik teks, gagasan utama paragraf
2. Tes Praktik: Menyusun teks news item dengan memperhatikan struktur, fungsi sosial dan ciri kebahasaannya.

Penilaian Tertulis

Find the meaning of following words in Indonesian. Those words are taken from the text below. (1 point)

1	attempt (p.1)	.....	4	host (p.5)	.....
2	tender (p.2)	.....	5	abundant (p.7)	.....
3	commence (p.3)	.....	6	issued (p.9)	.....

Read the text carefully and answer the following questions!

**80 Solar Power Projects up for Grabs**

(The Jakarta Post)The government has been tendering as many as 80 projects related to the development of solar power plants in an attempt to boost the country's renewable energy supplies. The projects will have a combined capacity of up to 140 megawatts (MW), according to Energy and Mineral Resources Ministry director general for renewable energy Rida Mulyana.

The ministry opened the tender starting last Thursday and is expected to announce the winners of the projects by this December.

"The solar plants' construction will take about six months. Therefore, we will see the plants commence operation in the middle of next year," Rida said as quoted by Antara news agency.

He added most of the solar power plants would be located in eastern Indonesia, such as in Papua, West Papua, Maluku, Sulawesi and Nusa Tenggara. Most of the power plants will have a 1 MW capacity while the biggest project will be located in Jayapura, Papua, with a 6 MW capacity.

According to Rida, at least nine power plants would be offered for development in East Nusa Tenggara (NTT) with a total capacity of 14 MW. He said seven locations in Papua would host solar power plants with a 14.5 MW capacity, six locations in North Maluku with a combined capacity of 7.5 MW, six developments in Maluku with 9.5 MW and another six projects in North Sulawesi with 13 MW.

There will also be three locations in Aceh hosting MW solar power plants, six in Riau with a 8.5 MW capacity, seven in West Kalimantan with a 9.5 MW capacity, five in West Nusa Tenggara (NTB) with 17 MW and four in East Java with a 4 MW capacity.

Despite abundant potential in renewable energy, the country remains heavily dependent on the fossil fuel for its electricity supply. According to a report the renewable energy directorate general, the country's solar power plants' installed capacity had reached 59 MW as of early November.

Energy and Mineral Resources Minister Jero Wacik said the country had a solar energy potential of 50,000 MW. "A number of companies came to us and said they wanted to build plants," Jero said at an event recently.

Attempting to boost solar power plant development, the Energy and Mineral Resources Ministry issued last June Ministerial Decree no. 17 2013, which regulates the purchasing of electricity produced by photovoltaic solar power plants by state-owned electricity company PT Perusahaan Listrik Negara.

7. Where will six solar power plants with a capacity of 8.5 MW be built? (1 point)

- A. Riau.
- B. East Java.
- C. North Maluku.
- D. East Nusa Tenggara.
- E. North Sulawesi

8. Why does the government tender many solar power projects? (1 point)

- A. To provide enough electricity for industries.
- B. To boost the country's renewable energy supplies.
- C. To encourage people to use the electricity wisely.
- D. To utilize the natural power resources our country has.
- E. To increase people's productivity by providing enough electricity.

9. From the text we can conclude that... (1 point)

- A. only a few of the new solar power plants will be built in western Indonesia
- B. our potential resources of renewable energy keep on decreasing
- C. more than nine solar power plants will be built in East Nusa Tenggara
- D. D. the total capacity of to-be-built solar power plants will be more than 140 MW
- E. E. Ministerial Decree no. 17 2013 regulates the state-owned electricity company (PLN)

10. What is the purpose of the text above? (1 point)

11. What is the paragraph organization of the text above? Explain (4 points)
